Ethernet Setting

Firmware version:

MAC:

UID:

IP:

Port:

Subnet mask:

Gateway:

Work Mode:

IP Mode:

Domain Name: Note: <50 letters (not use "SPACE" & case sensitive)

Server IP:

Server Port:

Mqtt Broker Username: Note: <10 letters (not use "SPACE" & case sensitive)

Mqtt Broker Password: Note: <10 letters (not use "SPACE" & case sensitive)

Wifi Setting

Wifi AP Mode: Note: select "STA" connect to router

Wifi AP Mode: Note: select "STA" connect to router

Router Name(SSID): Note: <32 letters (not use "SPACE" & case sensitive)

Encryption Method: Note: Most use "WPAPSK/WPA2PSK"

Encryption Algorithm: Note: Most use "AES"

Password: Note: <32 letters (not use "SPACE" & case sensitive)

Wifi MAC:

Wifi IP Mode:

Wifi IP:

Wifi Subnet mask:

Wifi Gateway:

Wifi Work Mode:

Wifi Server IP:

Wifi Server Port:

Mqtt Broker Username: Note: <10 letters (not use "SPACE" & case sensitive)

Mqtt Broker Password: Note: <10 letters (not use "SPACE" & case sensitive)

Password Setting

Login Password: Note: <10 letters (not use "SPACE" & case sensitive)

Post Password: Note: <10 letters (not use "SPACE" & case sensitive)

Relay Recovery: Note: Yes (Recovery state before power off) or No (All off When power on)
