 **ADD-ON STORE**

Where this screen ? How can I get it? And from where you get the Move data disk?

You can check with home assistant webpage: <https://www.home-assistant.io/common-tasks/os/> i think use 64G or 128G is enough for home assistant.

Also you mentioned it is written in this link the maximum size for connecting the USB disk Unfortunately no information on this in the attached link that you sent!

**Confirm adding Apple TV** ✕

You are about to add `Apple TV` of type `Apple TV 3` to Home Assistant.

**To complete the process, you may have to enter multiple PIN codes.**

Please note that you will *not* be able to power off your Apple TV with this integration. Only the media player in Home Assistant will turn off!

**SUBMIT**

**Apple TV** ✕

Unexpected error

**CLOSE**

Apple TV can saw on Home assistant but can't connect always error
